Bill,

Chapman

I have written you for a couple of reasons, but the main reason for writing is the new chess board I got. Last night everyone in my family except me went to Tijuana, Mexico. When they came home they handed me the 256 sq. in. chess board, with 3" (average) pieces.

Will you please write back and tell me if you have a chess board and if so, also include whether or not you want to play chess by mail. If you don't know how to play by mail, you can graph it or diagram it.

Another thing I had to tell you was, in my last letter, I forgot to tell you that I "would" like you to send me sec. 1-12 of the F.B. map. Included in this letter is my F.B. ticket book I made a couple of weeks ago, (PLEASE SEND BACK)

The last matter is concerned with the F.B. resort in Minniscott. I am mapping it out, and will send it to you in sections to copy if you want. The reason I asked if I could copy those rides you have in your F.B. notebook, is because I would like to own a F.B. notebook, and I need those rides for the F.B. resort in Minniscott.

Also included in this letter is another idea. An
